The Powder River by MossCreek is at home in any natural setting. The exterior is rich with natural materials such as stone and wood. It even features a cupola with weather vane. Porthole windows and an arced "cellar vent" complete a natural aesthetic. On the interior the Powder River features a master suite on the main level along the well known MossCreek living triangle of open kitchen-dining-great room areas. A large screened outdoor living porch on the rear of home is great for relaxing in the outdoors free from the nuisance of insects. The upper level features two spacious guest rooms and a bath.
